BACKGROUND

Prior to coming to the Bar, I worked as a medical practitioner for over a decade in both the public system and private practice across metropolitan and rural NSW. I also worked as a graduate / solicitor in a boutique litigation firm.

In addition to my medical experience, I am an experienced computer programmer, having been a research student in operating systems overseas and teaching as a casual academic at UNSW's School of Computer Science and Engineering.

I also hold a private pilot's license with night and instrument experience and over 500 flight hours across various types of aircraft, including gliders where I have a FAI Gold Badge with Goal Diamond.

SELECTED CASES

Ireland v Riverview (2019) 101 NSWLR 658 (instructing D Pritchard SC and D L Del-Monte)

Trade practices, misleading and deceptive conduct, disclaimers, representations of fact vs representations of honestly held belief
